

SOKOLOVSKYI Serhii Ivanovych. Biography

Serhii Ivanovych Sokolovskyi was born on April 16, 1964 in Dnipropetrovsk.

In 1987, he graduated from the Dnipropetrovsk Medical Institute and received a higher education in Dentistry. Already during his studies, he was awarded the "Inventor of the USSR" badge.

After graduating from the institute, he worked in his specialty in medical institutions in Dnipropetrovsk, combining practical work with teaching at the Dnipropetrovsk Medical Institute. Since 1992, he has worked at the I.I. Mechnikov Regional Clinical Hospital as the head of the department.

In parallel with his medical activities, he studied at the Dnipropetrovsk Regional Institute of Public Administration of the National Academy of Public Administration under the President of Ukraine, which he graduated in 2003 and received a Master of Public Administration qualification.

In the same year, he received a Master of Arts degree from London Metropolitan University (London, UK).

Also in 2003, he defended his dissertation at the Odessa Institute of Dentistry of the Academy of Medical Sciences of Ukraine, where he was awarded the academic title of Candidate of Medical Sciences.

From 2004 to the present, he has held the position of Vice-Rector for International Relations of the European Medical University, and since 2008, he has been the Director of the International Research, Educational and Methodological Center of Traditional Medicine of this University.

In 2005, he was invited to the Dnipropetrovsk Regional Institute of Public Administration of the National Academy of Public Administration under the President of Ukraine, to the position of senior research fellow, where, after completing his doctoral studies, from 2008 to 2020, he worked as an associate professor at the Department of Public Administration and Local Self-Government.

In 2007, he graduated from the Dnipropetrovsk National University named after O. Honchar, Faculty of Advanced Training in Medical Psychology, where after graduation he worked as an associate professor of the Department of Medical Psychology, Psychodiagnostics and Psychotherapy part-time.

For two consecutive years in 2007-2008, and in 2014, together with his co-authors, he was awarded the Diploma of the winner of the All-Ukrainian competition "Invention

2007", "Invention 2008", "Invention 2014" in the nomination "Best invention in the field of medicine and pharmacology".

Awarded the Order "Scientist of the Year 2019", the Honorary Diploma of the Ukrainian Federation of Scientists of Ukraine, the Gratitude of the Ministry of Health of Ukraine and the Diploma of the Verkhovna Rada of Ukraine. For his scientific discovery in the field of biophysics, he was awarded the Honorary Medal named after P.L. Kapitsa.

Included in the Book "Scientific Elite of Ukraine". Included in the fifth edition of "Flagships of Modern Medicine" of the best workers in the medical field of Ukraine. He is the author of over 200 scientific and educational and methodological works, monographs, patents for invention, co-author of a scientific discovery in the field of biophysics.
